Opinions of astrologers

1. Some astrologers say that there is no difference between Paribhraman Padathi and the transits in the zodiac/
2. In Paribhraman Padathi no planet is retrograde, except Rahu and Ketu.
3. Rahu and Ketu are almost in the same position in the paribhraman and zodiocal revolution.
4. There are two opinions of Mars’ revolution: i) 19 years & ii) 15 years.
   A) It is left to the astrologers to take either of these periods for calculation.
   B) Sapharel has hinted that the paribhraman period of Mars be taken as 15 years.
   C) There is an opinion that since the lords of the opposite signs (as given below) together arrive at 120 years, the period be taken as 15 years:
      i) The lords of Cancer and Capricorn, having Moon (4 years) and Saturn (30 years) respectively, arrive at 120 years when multiplied by their paribhraman years (i.e., 4 x 30 = 120)
      ii) Similarly the lords of Gemini and Sagittarius & Virgo and Pisces have 10 (Mercury) and 12 (Jupiter) respectively and when multiplied by their paribhraman years, we get 120.
      iii) Lords of the opposite signs of Aries and Libra & Scorpio and Taurus are Mars and Venus respective and when we multiply their paribhraman years of 15 and 8 we get 120.
      This figure of 120 years has been considered the age of a man by the ancient acharyas.
   Iv) Shir T.J. Chitnis and Shri Raje have taken the number of years of Mars as 19 years.

THE ASCENDANT OF THE YEAR (ANNUAL HOROSCOPE)

It is very important to note the Ascendant when a Paribhraman year starts for the native and thereby predict after noting the planetary configurations.

In this manner, the 12 houses will successively become the yearly ascendant or lagna for the first 12 years.

13th Year: The birth ascendant or Tanusthana becomes the ascendant
14th Year: The second house or Dhanasthna becomes the ascendant

This is the order to be followed thereafter.

OR MONTHLY CHART

The bhava (commencing ° ”) is the Varsha Lagna as well the Lagna for the 1st month of year of Paribhraman or Varsha Pravesh. Thereafter, each bhava (commencing ° ”) in sequence will be the lagna for the remaining 11 months to follow.

OR KUNDALI FOR THE DAY

Progress each house for the month under consideration by one degree for a day and in this manner we could prepare the desired daily chart and Shri Y. K. Pradhan, author of the book, feels that the desired results could be obtained. Shri Chitnis and Shri Raje used to diagnose the monthly and daily events by the Sun and the Moon respectively.

THE ASCENDANT OF YEAR  ‘वार्षिक लिंग’ (VARSHA LAGNA)

SOURCE:  

Ever since the use of Muntha in Tajik system of delineation came into use, astrologers in India started using the ascendant of the annual horoscope. The use of Sudharshan chakra, where transits are used for delineation of the chart along with the Ascendant, sun and Moon, TRANSITS played an important role in prognostication. Further the Moon chart (or Chandra Lagna) is also popularly used.

Shri Chitnis has incorporated all these ancient methods in the Paribhraman Padathi and attempted to use them in the system.

- If Varsha Lagnesh (Ascendant Lord of the Year) falls in 1st, 2nd, 4th, 5th, 7th or 9th, then there is wealth, happiness, etc. and progress during that year.
- If the Varsha Lagnesh is in 3rd, 10th or 11th bhavas, the native gets benefits by undergoing hardships; giving mixed results.
- If Varsha Lagnesh is in 6th, 8th or 12th bhava, that year is detrimental to happiness and there will be destruction and loss of property and fortune.

Notes on Paribhraman Padathi prepared by Prof. Anthony writer for the students of Jyotisha Bharati, Mumbai, India
If Varsha Lagnesh is conjunct or aspected by benefics, there will be wealth, learning and gains, luxuries and happiness.

If Varsha Lagnesh is conjunct or aspect by malefics then there will be physical ailments, misfortune or difficulties and the year will be full of struggle and strife.

Very progressive year if Varsha Lagnesh is in a good position from the ascendant, i.e., if in 1st, 2nd, 4th, 5th, 7th or 9th bhava, conjunct or well aspected by benefics.

If the Varsha Lagna is in the 3rd, 10th or 11th, conjunct or well-aspected by benefics, then the native attains success in his endeavours and gets all kinds of gains.

If Varsha Lagna is conjunct malefic in the above positions or is aspected by malefics then that year will be with adverse results and loss.

If Varsha Lagna is in 6th, 8th or 12th bhavas, conjunct benefics or aspected by benefics, then that year will be a normal one but if it is conjunct malefics in the above houses, or aspected by malefics, then that year will be full of difficulties and sufferings, almost identical with death.
NOTES ON PARIBHRAMAN PADATHI “THE ANNUAL HOROSCOPE” FOR STUDENTS

As we are delineating a chart from the annual horoscope vis-à-vis varsha Lagnesh and the planets in the annual horoscope, we should also consider delineation from the position of the birth ascendant and the varsha lagna.

If the ascendant or ascendant lord of the annual horoscope is in 2nd, 3rd, 4th, 5th, 7th and 9th bhavas and if conjunct with benefics in the Paribhraman chart or transits and/or if aspected by these benefics, then the year will be a good one.

If the varsha lagna or varsha lagnesh falls in the 3rd, 10th or 11th from the birth horoscope, and/or if the above position the varsha lagnesh is situated and/or conjunct or aspected by benefics, then there will be success in the projected and activities undertaken by the native.

If the varsha lagna or varsha lagnesh in these positions, then that year will give death-like difficulties with diseases and vexations.

If the varsha lagna or varshesh (lord of the year) fall in 1st, 2nd, 3rd, 4th, 5th, 7th, 9th, 10th or 11th bhavas and are conjunct or aspected by malefics or if they fall in 7th, 8th, 12th and at the same time are conjunct or aspected by benefics, then there will be an experience of mixed results instead of bad results.

If varsha lagna or varshesh be:
   a) conjunct or aspected by benefics by planets of birth chart; or
   b) conjunct or aspected by benefics of transits; or
   c) conjunct or aspected by benefics of paribhraman chart

then
   i) there will be very good progress during the year
   ii) there will be gains and benefits
   iii) there will be success in endeavours
   iv) the year will be good.
If the varsha lagna or varshesh be
   a) conjunct or aspected by malefics in the birth chart
   b) conjunct or aspected by malefics of transits
   c) conjunct or aspected by malefics in the paribhraman chart

the during that year there will be
   i) violence, passion, anguish, distress, affliction and indignation, etc.
   ii) loss of wealth
   iii) suffering.

Probably, if the varsha lagna is in a particular position in the birth chart and being the lord of that bhava, it is possible that adverse results or difficulties may arise with regard to that bhava during the year.

It is important to note that if varsha lagna or varshesh are conjunct or aspected by benefics of the birth chart, and at the same time if malefics of transits or paribhraman chart are conjunct or aspecting them, then too the results of that bhava will not be harmed considerably.

If the varsha lagnesh is swagrahi or malefic then too it will not give harmful effect if it comes to that position either in transit or in the natal chart.

Whenever such a planet comes in the birth lagna, varsha lagna or associates wit varshesh or benefics in transits, friendly planets or exalted planets or “swo-uchhi” planet, it always gives good results.

In the same manner if varsha lagna or varshesh associates with inimical planets or malefics, “neecha”planets in paribhraman or transits, then wherever varshesh is situated in the natal chart or paribhraman chart, it will give bad results, loss and be detrimental throughout the year.”

Note:
   a) the good results of labha, education, position, bhagya, conception, etc., are to be interpreted as per those stated in the ancient granthas.
   b) Whenever the lord of a bhava is conjunct or aspected by a benefic or the lord of the bhava is “swagrahi”, “swo-uchha”, then the good results of that bhava will be given during that year. But at the same time the lord of the bhava should neither be “neecha” in the paribhraman chart, nor have malefic aspects.

Generally: 

a) When 6th, 8th and 12th bhavas of natal chart become varsha lagna of the Paribhraman chart, at that time difficulties, miseries, material loss, loss of health and all types of adverse results occur.

b) Whenever malefics make bad combinations in a bhava of the natal chart, or are not in good aspect with the Sun and the Moon of the birth chart, if these bhavas are varsha lagna and their lords varshesh, then the native will have to suffer ill-health, loss of wealth, surmount difficulties, etc. during that year. All endeavours undertaken will experience delays, difficulties and progress will suffer greatly.

c) If the sun and Moon are in 6th, 8th or 12th are conjunct, and that bhava rises as varsha lagna then death-like situation comes to the fore with difficulties and bad health, the native has to struggle.

d) On the contrary, if

i) benefics are strong in a bhava

ii) the natal Sun and the natal Moon are well-aspected

iii) at the same time if 5th, 9th, 10th or 11th bhavas of the natal chart rise as the varsha lagna

iv) if the bhava having benefics with good aspects, become varsha lagna of the annual horoscope

then during that year there will be progress, success in endeavours and enterprises, rise in service, good business, wealth and fame will be acquired.

Notes on Paraibhraman Padathi prepared by Prof. Anthony writer for the students of Jyotisha Bharati, Mumbai, India
Mercury in Paribhraman Padathi:

If Mercury is strong and well-aspected, and if such a Mercury moves into the Ascendant, Xth, 9th, 3rd, 11th and 5th of the Paribhraman chart, then the native will get favourable results in intellectual vocations. At such time if Mercury is the yogakarak of wealth, then accordingly, conditions of trade, writing, oratory, eloquence, publications, travels, school, university, etc. would be favourable and profitable.

If Natal Mercury is afflicted and also weak and also afflicted in the Paraibhraman chart, there will be failure in and discontinuation of studies, ill-health, diseases of the brain, mental delusions, etc.

A strong Mercury, when entering Gemini, Virgo, Libra or Aquarius of the Paribhraman chart or on any auspicious position in the zodiac, at that time there will be interest in studies, science, writing and intellectual progress takes place.

If a strong natal Mercury is in Capricorn in the Paribhraman chart, then there is success in exams.

Jupiter in Paribhraman Padathi:

A strong Jupiter with good aspects in the natal chart, when entering the Xth, Ascendant, 11th, 2nd, 9th, 7th and 5th bhavas of the Paribhraman chart then it gives very good results in that particular bhava. It gives plenty in service, business, in the 10th bhava; lots of wealth in the 2nd bhava; wealth, plenty and happiness from good friends in the 11th; brings good luck in the 9th and gives children, travel, tirth yatra, progress in religious knowledge, success in controversies, debates and litigations, the knowledge of religion and a Guru.

If Jupiter is afflicted and with malefic aspects, then there will be difficulties in acquiring wealth and children, loss of prestige, failures and loss in general.

A strong and well-aspected Jupiter in the 6th gives progress and advancement in service and business. Similarly, a strong and well-aspected Jupiter in the 8th gives material benefits in service and business and will and legacy.
Notes on Paraibhraman Padathi

Venus in the Paribhraman Padathi

If natal Venus is strong and well-aspected and is strong in the Paribhraman chart and is in the Ascendant, the 10th, 11th, 2nd, 9th, 7th or 4th bhavas, then there is plenty of food and wealth, all the pleasures and enjoyments of life, acquirement of vehicles and is very lucky. If Venus is exalted or swagri, in the 10th, 7th and 2nd, then Venus gives wealth. In the Ascendant, 7th or 5th, then he gives plenty of women and increases luck in the 9th. If in the 5th and 11th, then he gives luck through children; during this period marriage takes places.

If Venus is weak in the natal chart, and afflicted with bad aspects, then even if it is well-placed in the Paribhraman chart, it will not be so beneficial. If it is weak and afflicted in the Paribhraman chart, then it will give all sorts of problems and detrimental results.

Saturn in the Paribhraman Padathi:

If Saturn is strong and with good aspects and is placed in the 11th, 3rd, 9th, 5th, Ascendant or 10th bhavas; either in the natal or the annual chart, then it will give good results.

Shri Pradhan is of the opinion that the qualities of Saturn is almost opposite to that of Jupiter. Saturn declines and reduces and gives steadiness, firmness and stability while Jupiter gives expansion, splendor, propriety and grandeur but while Jupiter gives evil results then he destroys us with our own intellect. One should take the prominent characteristics of Saturn while predicting about Saturn:

1st bhava: Worry, ill-health and physical infirmity.

2nd bhava: destruction of wealth, struggle for livelihood, harm to family, occasions arise to borrow.

3rd bhava: Difficulties to kindred, destruction of happiness, brother, physical feebleness.

4th bhava: Problems from earnings of immoveable property, problems with residential accommodation; unhappiness at home with difficulties and worries.

If Saturn is strong and has good aspects with Jupiter, then there will be earnings from immoveable property, renovation of dwelling place or new residential accommodation.

5th bhava: An afflicted Saturn denies children but a strong Saturn gives happiness of children to married couples at an appropriate age.

If Jupiter or Saturn goes to Paribhraman Ascendant, 2nd, 3rd, 5th, 7th, 9th and 11th bhavas during that time it is favourable for conception.

Saturn in 5th bhava does not give success in exams, lottery and gambling and does not give favourable results to new enterprises.

6th bhava: gives diseases, worries, problem with service, destruction of pets, clothes wear out and grains do not last long.

7th bhava: destroys happiness with women and failures or disputes in partnership business; unfavourable for wealth.

8th bhava: there is strife, illness, unfavourable for wealth and not period of getting good results in service.

9th bhava: If Saturn is strong in the natal chart, and also in the 9th at birth and has benefic aspects then it enhances one’s luck but an afflicted and weal Saturn destroys Bhagya, bringing problems in travel and spouses, failures in law suits and there is no progress in studies.

10th bhava: An afflicted Saturn gives problems in service and business and also failures. A strong natal Saturn that is well-aspected gives stability in service and business and then expands its.

11th bhava: A strong and well-aspected natal Saturn gives benefits from father and elders. During this period there are benefits in business and earnings. There are benefits from estate and property and investment in property.

12th bhava: An afflicted Saturn in this house gives difficulties and destruction.
Herschel/Uranus in Paribhraman padathi

If Herschel is afflicted, i.e., if it makes bas aspects with the Sun, Moon, M.C. Asc. and other planets it gives sudden developments like dissension, separation, breaks in love affairs, marriage, etc.

When it makes good aspects with other planets and points, then it gives authority and importance, sudden wealth and progress.

In a chart which promises intellectual development and makes a trine to the Asc. 3rd, 9th or 11th cusps, trine to the natal Moon or natal Mercury, at that time the native develops intellectually and succeeds with new thoughts, foresights, imagination. When trine to an exalted natal Sun and with benefic aspects in paribhraman chart then one gets authority, honour and excellence during that period. Similarly, when it is in good aspect and position to Jupiter or Venus and also has good aspects in the Paribhraman chart, then one gets gains, sudden wealth, success and gains in industry and business, promotions in service and prosperity in general.

In short, Herschel is a revolutionary planet, an in whichever position it revolves, it brings change and revolution; may be good or bad, depending upon the directions, position and aspects in the natal chart and paribhraman chart and transits.

Neptune or Varun in Paribhraman Padathi:

The qualities of Jupiter and Venus are seen in this planet. Like Venus: a poet, singer, fine arts, perception in the ability of art. Like Jupiter: religious discourses and debates, love of religion and Shastras and material gains.

If Neptune is afflicted: then a traitor, treacherous, cheat, spying, thief, dacoit, burglar, smuggler, black money, etc.

If Neptune makes a good aspect with a strong planet, then the native experiences good results.

Notes on Paribhraman Padathi prepared by Prof. Anthony writer for the students of Jyotisha Bharati, Mumbai, India
If the planet aspecting Neptune is weak and Neptune’s aspect is good then one experiences very little results.

If Paribhraman Neptune makes bad aspects with a strong planet in the natal chart, then there may not be adverse results. But at the same time natal Neptune has bad aspects then there would be trouble.

**Neptune and Sun**

Neptune making good aspects to Natal Sun: gives inspiration, natural impulse, liking and creativity in fine arts, religious philosophy, etc. Though these, one gets honour, excellence and gains during the period.

If Neptune makes bad aspects to natal Sun then one is unfortunate, cheat, unlawful, litigations in business, affairs with other women, loss of strength, etc.

**Neptune and Moon**

If Neptune makes good aspect with Moon then the power of imagination increases, there is sympathy, compassion, learning occult sciences, one becomes idealistic and devoted to religion. This period leads one to the path of occult learning progressively; makes one a visionary, gives sea voyages, imagination, makes one adept in arts, many enthusiastic poets have flourished; evokes interest in learning and playing musical instruments.

Paribhraman Neptune making malefic aspects with Moon: problem arises in the house where it is situated, problems with females, is a cheat, has mental problems, physical problems due to poisonous drugs, the body is unclean, ill-health, moves with mendicants, sadhus, false preachers, problems with spirits and mantra tantra; accompanies people with vices – is a very bad period in general.

**Neptune and Mercury**

Paribhraman Neptune making good aspects to Mercury – is blessed with knowledge, makes use of his power of imagination for progress; new vistas of imagination, writing novels, a new spirit and life-force to the poets, sharp intelligence, intuition and foretelling dreams. Visions and progress in religious philosophy.

Paribhraman Neptune with bad aspects to Mercury: loses memory power, indecisive, fear, cheat, infamy, false implication, mental illness. This period is bad for students- failures in exams and will experience troubles in exams and travels.

*Notes on Paribhraman Padathi prepared by Prof. Anthony writer for the students of Jyotisha Bharati, Mumbai, India*
Neptune and Venus:

Good aspects: Position in wealth and material benefits improves. Progress in astrology, knowledge and studies. Liking and involvement in religious worship, mantra-tantra and one gains good experience in these sciences. Attracted to the art of singing and dancing and benefits from stories of happiness. First seen where these planets are situated in the charts and how they are directed and thereby through these principles predict the results.

Malefic aspects in the natal chart brings bad results related to happiness from women, problems due to conspiracy, treachery, censurable news and behaviour, adultery, vices, etc.

Neptune and Mars:

Good aspects: Good times, courageous deeds, adventures, enthusiasm, success in service, honour, research in sciences – doctor, engineer, etc., leading to progress and plenty.

Bad aspects: Fear from disaster, danger from poisons, destruction of relatives, failure in business and earnings. One should be careful because many people have suffered from problems in connection with the police and prosecution; it is advisable to avoid operations during such aspects.

Neptune and Jupiter:

Good aspects: Give good results and is beneficial, religious fervour increases, meets good saints and sages, is generous, has universal compassion, indulges in high thinking. It is a progressive period, good for business enterprise with peace and prosperity.

Bad aspects: Problems with material wealth, unwanted expenses, fear of material loss due to fraud. One has to be very careful in dealing with material transactions, do not stand as witness or guarantor, do not lend money, do not invest in business that appear to be attractive or be a partner. All these are dangerous and detrimental.

Neptune and Saturn:

Good aspects: Gives profound and enthusiastic thoughts, inclinations to study and do research in occult sciences and high sciences and deep study; relations with intelligent people.

Bad aspects: Failure, infamy and illness of the body.

Neptune and Herschel

Good aspect: liking for sciences; expecting wonders and miracles, travel and extraordinary things.

Bad aspects: strange and weird imaginations in relation to the houses they are situated, rumours, bad experiences of accidents, etc., resulting in death or being handicap.

RAHU AND KETU IN PARIBHRAMAN PADATHI

Conjunction with other planets play a vital role with Rahu and Ketu. When Rahu and Ketu are associated with Saturn, Mars and Herschel, etc. then bad results are interpreted. When Rahu and Ketu are on the degrees of the Ascendant, M.C. and their association with malefics, bad results are to be foretold. Similar results occur when they are on the degree of the Moon.

Note where the eclipse falls and if it falls on any planet then pay attention to it. If malefic aspects fall on this planet, then predict bad results. If the lunar eclipse falls on the cusp of the M.C. then there are difficulties in enterprise, service and defamation or fall from grace. If the lunar or solar eclipse falls on the cusp of the Ascendant and malefics aspect it, then interpret bodily illness.
III THE EMPHASIS OF THE ELEMENTS ON THE NATIVE

FIRE:
Aggressive, dominant, over-dramatic, making mountain of a molehill, rash, impetuous behaviour, fits of passion, quarrelsome, insensitive, more detached, spontaneous and abrupt; neglects body and does pay attention to it.

EARTH
Due to emphasis on physical sensation and reality, logic, method, etc. imagination, vision, inspiration and intuition are stifled. As there is very little emotion, the release of anger, heat and resentment could be difficult.

AIR
Inclinations to live in abstract world, study of maths, debates, etc. make them hurt others’ sensitiveness and at the same time they neglect their physical body by insufficient sleep and having food at odd times.

WATER
As they are overwhelmed by emotions and are over-protective, they can go into depression and bad moods if their security is threatened. This also leads one to have mistrust of feelings and it is hard to take an objective feeling.

**Notes on Paribhraman Padathi prepared by Prof. Anthony writer for the students of Jyotisha Bharati, Mumbai, India**
V DIRECTIONS IN PARIBHRAMAN PADATHI

I The major direction in Paribhraman Padathi are the aspects formed by the progressed bodies or cusps to their positions vis-à-vis
   i) the Radical horoscope
   ii) the Prabhraman chart

Directions are also classified into
   i) Solar directions
   ii) Lunar directions
   iii) Mutual directions
   iv) Directions to angles

The points by and to which directions are formed are:
   i) MC
   ii) Asc
   iii) The Sun
   iv) The Moon
   v) Part of Fortune

These five bodies/points are called significators and the remaining are termed Promittors.

II Directions usually operate strongly before or after the aspects.

III To calculate the major aspects in operation at the time for which the directional chart is set up for the given period
Direct MC to - MC, Asc, planets in the Radical chart
Direct Asc to - MC, Asc, planets in the Radical chart
Direct planets to - MC, Asc, planets in the Radical chart

Time of operation depends upon transits

It gives us general survey by the nature of influence.

Cuspal directions
   i) cusp to cusp
   ii) cusp to radical planet
   iii) aspect to one cusp will be aspect opposite
   iv) when a planet comes to a conjunction of the cusp the effect is great
   v) transiting planet to cusp of the direction

Conclusion
- Interpretation of all direction must be made with reference to radical horoscope and to the line of directional chart into which planets have moved.
- Planet and aspect
- Sign containing the planets
- House of radical horoscope in which they fall
- House they rule in the radical horoscope
- Exact date of operation of transiting planet

Peculiarities of paribhraman Padathi

1) The Sayana method is used
2) Progressed year = calendar year of birth + completed No. of years.
3) Irrespective of place of birth
4) Maas kundali = monthly kundali
5) Dina kundali – for each completed day.
6) Zodiacal revolution
7) In Paribhraman, the progression of Asc and cusp is taken uniformly at the rate of one house per year of life in the annual chart and one house per month in the monthly chart.
8) In Paribhraman no planet is considered Retrograde, Stationary and Direct, except Rahu/Ketu
9) The interpretation of all directions must be made with reference to the radical horoscope and to the house of Paribhraman Padathi into which the planets have moved
10) The effect of any direction as is regarded by:
   i) the house of the radical chart in which they fall
   ii) the aspect of the directed planet with the planet in the birth chart
   iii) the house of the Paribhraman Padathi in which they fall
   mutual aspects between planets
11) Result of planets in the Paribhraman Padathi depend upon the position, strength, characteristic, ruler ship, aspect of the planets in the birth chart.

Effects of Lord of Ascendant in Annual Chart

1. Annual chart Lord in auspicious house in Annual Chart:
2. Annual Asc. Lord (Varsha Lagnesh) in conjunction or aspect with benefics gives excess of wealth, education, happiness.
3. Annual Asc. Lord (Varsha Lagnesh) in conjunction or aspect with malefics gives bodily troubles and miseries.
5. Annual Asc. Lord in 3, 10, 11 – honour, favourable
6. 6, 8, 12 with benefics –
7. 6, 8, 12 with malefics – death like miseries.
8. Planets strong in birth chart, strong in ascendant – favourable
9. Planets weak in birth chart, strong in ascendant – will still not be able to give good results
10. Pre-eminence of benefic aspects - good results.

We have to take the following into consideration to assess the effects of the ascendant vis-à-vis the planets, in the annual horoscope, while interpreting the native’s future:
- Strength of the planets
- Qualities and attributes
- Position of houses and signs
- Signification of the planets.

When a planet is weak in the natal chart, and becomes exalted, swagrahi or strong by position in the paribhraman chart, then it may not confer good results. On the contrary, weak planets, which are malefic like Saturn and Mars in the birth chart, when they become exalted, swagrahi, etc. in the annual horoscope, they shower bad results.

**Neptune & Saturn:**
Good aspects: gives profound and enthusiastic thoughts, occult science inclination, research and higher science and close study, relations with intelligent people.

**Neptune & Hershel:**
Good aspects: liking for science, liking for miracles, travel, novel and new experiences.

Bad aspects: strange imaginations in relation to houses situated & rumours; bad experiences of accidents, etc. may die or become handicapped.

**Pluto:**
The author states that not much is known about Pluto as it was discovered recently. *(As the planet was discovered only in 1936, at that time not much research was done and hence the author has not written details of this planet)*.

He tells us to take planet on the degree of the natal chart, 10th cusp degree, the good aspects of the Sun, the Moon & Part of Fortune, and interpret the results according to the benefic aspects mad. If malefic aspects are made, then interpret bad results. Care should be taken for this interpretation because Pluto takes a very long time to separate from the aspects, nearly 3 to 4 years.

N.B.:
*As we are in the 21st Century and have vast information on this planet, students are in a position to apply this new knowledge and interpret the findings.*

{Chiron: This planetoid was discovered in 1972 and research is being done on it. It has been assigned the co-rulership of Virgo. Application of the findings of this planetoid will surely give better results to those who persevere, toil and dare to this new path.}

**Rahu & ketu:**
Conjunctions of other planets play a vital role with Rahu & Ketu. When Rahu and Ketu are associated with Saturn, Mars, Hershel, etc. then bad results are interpreted. When Rahu / Ketu are on the degree of the Ascendent & MC then their association with Malefics causes bad results. Similarly, results occur when it is on the degree of the Moon. Note where the eclipse falls and if it falls on any planet then pay attention to it. If malefic aspects of planets fall on this planet, then predict bad results. If the lunar eclipse falls on the cusp of the M.C. then there are difficulties in enterprise, service and defamation or fall from grace. If the lunar eclipse or solar eclipse fall on the cusp of the ascendant and malefics afflict it, then interpret bodily illness.
